GENERAL NOTES

- Bearings based on NAD 83 Texas South Central Zone.
- If it is my opinion that there is no observable evidence of earth moving work, building construction or building additions within recent months.
- If it is my opinion that there have been no changes in street right-of-way lines either completed or proposed, and available from the controlling jurisdiction. Observable evidence of recent street or sidewalk construction or repairs.
- If it is my opinion that there is no observable evidence of site use as solid waste dump, sump or sanitary landfill.
- All Houston Power and Lighting tracts grant access to grantors.

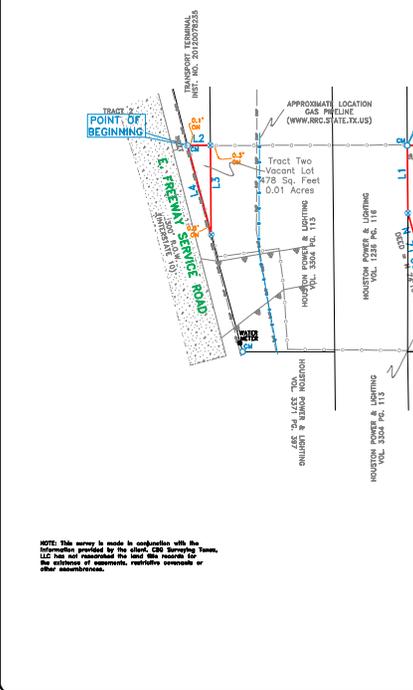

PROPERTY DESCRIPTION

Tract One
Being a tract of land situated in the Peter Duncan Survey, Abstract Number 232, City of Channelview, Harris County, Texas, same being that tract of land C-1 conveyed to Alma Oeather Hickman Marsh by deed recorded in Instrument Number U248146, Official Public Records, Harris County, Texas, and being more particularly described as follows:
BEGINNING at a 1/2 Inch iron pipe found for corner, said corner being in the South line of that tract of land conveyed to Houston Power and Light by deed recorded in Volume 1236 Page 116, Deed Records Harris County Texas, same being the Northwest corner of Unrestricted Reserve "A" of Dupre Logistics Subdivision Replat Number 1, according to the plat thereof recorded in Film Code Number 649174, Plat Records, Harris County, Texas;
THENCE South 03 degrees 12 minutes 25 seconds East, along the West line of said Dupre Addition, a distance of 628.97 feet to a 1/2 inch iron rod with a yellow plastic cap stamped "CBG Surveying" set for corner of an interior ell corner of said Reserve A Dupre Addition;
THENCE South 86 degrees 26 minutes 59 seconds West, continuing along said Reserve A Dupre Addition, a distance of 143.38 feet to a 1/2 inch iron rod found for corner;
THENCE North 03 degrees 00 minutes 02 seconds West, along said Reserve A Dupre Addition, a distance of 602.81 feet to a 1/2 inch iron rod with a yellow plastic cap stamped "CBG Surveying" set for corner, point being at the common South corner of those tracts of land conveyed to Houston Power and Light by deed recorded in Volume 3571, Page 397 and Volume 3504, Page 113, Deed Records, Harris County, Texas;
THENCE North 71 degrees 05 minutes 36 seconds East, along the South line of said Houston Power and Light Tract (Vol. 3304 Pg. 113), a distance of 98.75 feet to a 1/2 inch iron rod with a yellow plastic cap stamped "CBG Surveying" set for corner, said corner being in the South line of said Houston Power and Light Tract Volume 1236;
THENCE North 86 degrees 25 minutes 09 seconds East, along the South line of said Houston Power and Light Tract (Vol. 1236 Pg. 116), a distance of 46.14 feet to the POINT OF BEGINNING and containing 88,223 square feet or 2.03 acres of land.

THENCE South 86 degrees 26 minutes 59 seconds West, continuing along said Reserve A Dupre Addition, a distance of 143.38 feet to a 1/2 inch iron rod found for corner;
THENCE North 03 degrees 00 minutes 02 seconds West, along said Reserve A Dupre Addition, a distance of 602.81 feet to a 1/2 inch iron rod with a yellow plastic cap stamped "CBG Surveying" set for corner, point being at the common South corner of those tracts of land conveyed to Houston Power and Light by deed recorded in Volume 3571, Page 397 and Volume 3504, Page 113, Deed Records, Harris County, Texas;
THENCE North 71 degrees 05 minutes 36 seconds East, along the South line of said Houston Power and Light Tract (Vol. 3304 Pg. 113), a distance of 98.75 feet to a 1/2 inch iron rod with a yellow plastic cap stamped "CBG Surveying" set for corner, said corner being in the South line of said Houston Power and Light Tract Volume 1236;
THENCE North 86 degrees 25 minutes 09 seconds East, along the South line of said Houston Power and Light Tract (Vol. 1236 Pg. 116), a distance of 46.14 feet to the POINT OF BEGINNING and containing 88,223 square feet or 2.03 acres of land.

SURVEYOR'S NOTES

- Except as shown on the survey, there are no visible easements or rights of way.
- Except as shown on the survey, there are no observable, above ground encroachments (a) by the improvements on the subject property upon adjoining properties, streets or alleys, or (b) by the improvements on adjoining properties, streets or alleys upon the subject property.
- The location of each easement, right of way, servitude, and other matters affecting the subject property and listed in the file insurance commitment with an effective date of _____ issued by _____ with respect to the subject property has been shown on the survey, together with appropriate recording references, to the extent such matters can be located. The property shown on the survey is the property described in that file commitment. The location of all improvements on the subject property is in accord with minimum setback provisions and restrictions of record referenced in such title commitment.
- That the subject property has access to and from a duly dedicated and accepted public street or highway.
- The subject property does not have any adjoining property for drainage, utilities, or ingress or egress.
- The record description of the subject property forms a mathematically closed figure.
- Said described property is located within an area having a Zone Designation X/2-500 by the Secretary of Housing and Urban Development on Flood Insurance Rate Map No. 48201C0720M, with a date of identification of 01/06/2017, for Community No. 480287, in Harris County, State of Texas which is the current Flood Insurance Rate Map for the community in which the subject property is located.

SURVEYOR'S CERTIFICATE

This survey is made relying on information provided by Virginia Thorpe in connection with the transaction described in O.P.# _____. The undersigned, being a registered land surveyor of the State of Texas certifies to _____ and _____ as follows:
This is to certify that this map or plat and the survey on which it is based were made in accordance with the "Minimum Standard Detail Requirements for ALTA/NSPS Land Title Surveys," jointly established and adopted by ALTA and NSPS in 2016 and includes items 1, 2, 3, 4, 7(c), 7(d), 8, 9, 13 and 14 of Table A thereof. Pursuant to the Accuracy Standards as adopted by ALTA and NSPS and in effect on the date of this certification, undersigned further certifies that in my professional opinion, as a land surveyor registered in the State of Texas, the Relative Positional Accuracy of this survey does not exceed that which is specified therein. The survey was made on the ground 05/19/2022.
The parties listed above are not entitled to rely on the survey. Executed this 18th day of May, 2022.

Amenities	Typical	View(s)	Adjoining Retail

Utilities

All utilities, as applicable, are available in adequate capacity for the site to be developed to it’s highest and best use.

Flood Plain

Based on the Federal Emergency Management Agency, Community Panel number 48201C0720M, dated January 6, 2017, the site is located in Zone “X”. This flood zone designation is an area outside the 100-year flood-plain. The subject’s flood zone map has been included in this section of this appraisal report.

Site Boundaries

A site’s boundary lines can affect use, development potential, and marketability. A property’s boundary lines more than shape and size the site; they tend to impact access and exposure. The site dimensions have been estimated based on either the client provided data and/or available public sources. We do not guarantee the site dimensions to be correct. The plain, linear feet length, and line contour of the subject’s boundaries have been analyzed in the subsequent **Site Boundaries** table.

PANEL DATE	January 06, 2017	MAP NUMBER	48201C0720M

Definitions of FEMA Flood Zone Designations

Zones indicating mandatory purchase of flood insurance in participating communities

ZONE	DESCRIPTION
A	Areas subject to a one percent or greater annual chance of flooding in any given year. Because detailed hydraulic analyses have not been performed on these areas, no base flood elevations are shown.
AE, A1 - A30	Areas subject to a one percent or greater annual chance of flooding in any given year. Base flood elevations are shown as derived from detailed hydraulic analyses (Zone AE is used on new and revised maps in place of Zones A1 - A30).
AH	Areas subject to a one percent or greater annual chance of shallow flooding in any given year. Flooding is usually in the form of ponding with average depths between one and three feet. Base flood elevations are shown as derived from detailed hydraulic analyses.
AO	Areas subject to a one percent or greater annual chance of shallow flooding in any given year. Flooding is usually in the form of sheet flow with average depths between one and three feet. Average flood depths are shown as derived from detailed hydraulic analyses.
AR	Areas subject to a one percent or greater annual chance of flooding in any given year due to a temporary increase in flood hazard from a flood control system that provides less than its previous level of protection.
A99	Areas subject to a one percent or greater annual chance of flooding in any given year, but will ultimately be protected by a flood protection system under construction. No base flood elevations or flood depths are shown.
V	Areas along coasts subject to a one percent or greater annual chance of flooding in any given year that also have additional hazards associated with velocity wave action. Because detailed hydraulic analyses have not been performed on these areas, no base flood elevations are shown.
VE, V1 - V30	Areas along coasts subject to a one percent or greater annual chance of flooding in any given year that include additional hazards associated with velocity wave action. Base flood elevations are shown as derived from detailed hydraulic analyses. (Zone VE is used on new and revised maps in place of Zones V1 - V30.)

CoreLogic® Flood Services has led the industry in providing fast, reliable and accurate flood risk data for 20 years. More than one million users rely on us to assess risk; support underwriting, investment and marketing decisions; prevent fraud; and improve performance in their daily operations.

Zones indicating non-mandatory (but available) purchase of flood insurance in participating communities

ZONE	DESCRIPTION
D	Areas of undetermined flood hazard where flooding is possible.
X, C	Areas of minimal flood hazard from the principal source of flood in the area and determined to be outside the 0.2 percent annual chance floodplain. (Zone X is used on new and revised maps in place of Zone C.)
X (Shaded), X500, B	Areas of moderate flood hazard from the principal source of flood in the area, determined to be within the limits of one percent and 0.2 percent annual chance floodplain. (Shaded Zone X is used on new and revised maps in place of Zone B.)
XFUT	For communities which elect to incorporate future floodplain conditions into their FIRMs, the future flood zone shown on the new map indicates the areas which the community believes will become the one percent annual chance floodplain (or the future Special Flood Hazard Area), due to projected urban development and land use.
None	Areas of undetermined flood hazard that do not appear on a Flood Insurance Rate Map or Flood Hazard Boundary Map, where flooding is possible.

Data Note: The Traffic Profile displays up to 30 of the closest available traffic counts within the largest radius around your site. The years of the counts in the database range from 2025 to 2000. Esri removes counts that are older than 2000 from the Kalibrate provided database. Traffic counts are identified by the street on which they were recorded, along with the distance and direction to the closest cross-street. Distances displayed as 0.00 miles (due to rounding), are closest to the site. A traffic count is defined as the two-way Average Daily Traffic (ADT) that passes that location.

Information About Brokerage Services

Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- **A SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all others, including the broker's own interests;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

AS AGENT FOR BUYER/TENANT: The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH - INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of each party to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
 - that the owner will accept a price less than the written asking price;
 - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
 - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.
